Helping Children Manage Money Wisely
FREE LifeSavers Teacher Training

LifeSavers champions the need for a practical, holistic approach to financial education, one that involves the whole school and wider community too.

Why not join us at our FREE teacher training event to find out more about how your school could benefit from our values based approach to financial education.

The training will help your school to:

- ◆ Develop your pupils' social and moral thinking around money
- ◆ Integrate a whole school approach to financial education
- ◆ Discover the benefits of practical and experiential money learning
- ◆ Consider a whole community approach to saving and money management

You'll also have the opportunity to share experiences and good practice with teachers from across your region.

Each school will receive two FREE LifeSavers resources.

A set of our classroom resources 5 Big Questions about Money and a copy of our collective worship materials, Values for LifeSavers.

"Really useful and very informative. Can't wait to develop this further with my class and across the school."

"Excellent session, lots of information and ideas to grow financial education."
